

We hereby quote the Quality Policy:

The Quality Policy defined by the Management states that the company should be seen as the synonym of Quality, Innovation and Safety, in the Development of medical devices. To attain this goal, we will use our QMS ensuring that:

- We will work hard to ensure the full satisfaction of our customers providing them safe products of the highest quality standards, that will respond, and, if possible, exceed their most demanding needs and expectations;
- We will contribute to the progress of diagnosis and health research, providing diagnostic products of excellent quality and advanced technology;
- We will assure the compliance with all EN ISO 13485 standard and EU Regulation 745/2017 requirements. We also must ensure the compliance with all harmonized standard, legal and ethical applicable requirements.

At GRIPWISE TECH we believe that continuous improvement will be the key to our success, so:

We will combine efforts on the research field to develop innovative products.

We will provide our workers with continuous training and the best working conditions, as a way to assure improvements to the effectiveness of GRIPWISE TECH.

The Management,

03/03/2023
